

**REMARKS**

Applicant wishes to thank the Examiner for considering the present application. In the Office Action dated June 17, 2003, the Examiner points out that claims 11 and 12 were presented as amended in the response dated April 8, 2003.

Claims 11-12 were not intended to be marked as amended when in fact they were previously amended. Applicant submits herewith a corrected page 4 of the response for Examiner's use.

In light of the above remarks, applicant submits that all objections are now overcome. The application is now in condition for allowance and expeditious notice thereof is earnestly solicited. Should the Examiner have any questions or comments which would place the application in better condition for allowance, he is respectfully requested to call the undersigned attorney.

Please charge any fees required in the filing of this amendment to deposit account 06-1510.

Respectfully submitted,

Kevin G. Mierzwa  
Registration No. 38,049  
Attorney for Applicant

10. (Original) A method as recited in claim 8 further comprising the steps of weighting a predetermined section of the unclassified document.

11. (Previously Amended) A method as recited in claim 10 wherein said predetermined section is one from the group of an abstract; an international classification; a U.S. classification, claims section and a title.

12. (Previously Amended) A method as recited in claim 1 further comprising reclassifying a plurality of classes into a plurality of new classes by:  
identifying source documents for each of said plurality of new classes;

generating respective new class theme scores;

reclassifying documents with said plurality of classes into the plurality of new classes when the classified document theme score is equal to one of the respective new class theme scores.

11. (Previously Amended) A method as recited in claim 10 wherein said predetermined section is one from the group of an abstract; an international classification; a U.S. classification, claims section and a title.

12. (Previously Amended) A method as recited in claim 1 further comprising reclassifying a plurality of classes into a plurality of new classes by:  
Identifying source documents for each of said plurality of new classes;

generating respective new class theme scores;

reclassifying documents with said plurality of classes into the plurality of new classes when the classified document theme score is equal to one of the respective new class theme scores.
